PROFESSIONAL SUMMARY

Frontend-focused Software Developer with hands-on experience building responsive, accessible, and performant user interfaces using React.js, JavaScript, HTML, CSS, and Tailwind CSS. Skilled in translating designs into clean, reusable components and integrating them with REST APIs, developed through a MERN Stack internship and multiple full-stack projects. Comfortable working across the stack with Node.js, Express.js, and MongoDB, applying strong software design principles to write reliable, maintainable code. Seeking to contribute as an Associate Software Developer, delivering high-quality, well-tested software.

CORE TECHNICAL SKILLS

- Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Web Design, Component-Based Architecture
- Backend: Node.js, Express.js, REST API Design, JWT Authentication, bcrypt
- Database: MongoDB, MySQL
- Tools and Version Control: Git, GitHub, VS Code, Postman, MongoDB Compass, npm, Microsoft Excel, Microsoft Word, Microsoft PowerPoint
- Software Development: Software Design Principles, Software Development Lifecycle (SDLC), Debugging, Problem-Solving
- Professional Skills: Analytical and Scientific Problem-Solving, Team Collaboration, Time Management, Communication, Active Listening, Quick Learning Ability

WORK EXPERIENCE

MERN Stack Developer Intern — DigiCoder Technology Private Limited 6-Month Internship

- Applied core software engineering practices to design, develop, and maintain full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Worked to direction with reducing supervision, following established development processes to deliver accurate, reliable, and well-tested code within short-term project timelines.
- Collaborated as a team player with other developers and stakeholders to support project goals and improve overall performance.

FRONTEND PROJECTS

Online Shopping Website — Luxe Shop

- Developed a modern, responsive e-commerce frontend using React.js and Tailwind CSS, featuring product listings, category browsing, and a clean, mobile-friendly shopping UI.
- Focused on reusable component design, smooth navigation, and fast page performance to deliver an engaging user experience.

FULL STACK PROJECTS

E-Commerce Shopping Mart — Full Stack E-Commerce Application

- Designed and developed a full-stack e-commerce application using React.js, Node.js, Express.js, and MongoDB, applying software design principles to structure scalable, maintainable code.
- Implemented secure user authentication (JWT, bcrypt), product management, shopping cart, order management, and a responsive UI.

Online Course Registration System

- Built a full-stack registration system enabling students to browse and enroll in courses, applying REST API design and database modeling principles.

CERTIFICATIONS

- Microsoft Analytics with Excel
- AWS Certificate
- HCL Govi Hackathon – Participation Certificate
- Databricks SQL Analytics and BI on Databricks

EDUCATION

- Diploma in Computer Science Engineering (BTEUP) — 80%, 2026
- Intermediate (Class XII), B.P.O.I.C., Prayagraj — 76%, 2023
- High School (Class X), B.P.O.I.C., Prayagraj — 90%, 2021

ACHIEVEMENTS

- Secured School Top Rank in Class X (2021).
- Received Prize from HCL Technologies for outstanding performance in a technical event.
